

Associate in Applied Science Criminal Justice- Outcomes

Students will demonstrate outcomes in each of the following areas:

Criminal Justice

After successfully completing the Criminal Justice requirements, students will:

1. Be employable in entry level law enforcement and/or correctional positions.
2. Understand, articulate, and evaluate the similarities and differences between and among the components of the Criminal Justice System; the Police, Courts, and Corrections.
3. Understand, articulate, and evaluate how various factors (e.g., social, personal, historical, political, and economic) influence human behavior and its impact within the Criminal Justice System.
4. Understand, articulate, and evaluate the applicability of significant theoretical perspectives (e.g., conflict theory, feminist theory, cognitive behavior theory) as they relate to contemporary criminal justice issues.
5. Identify, understand, evaluate, and apply research literature from multiple social science disciplines (e.g., sociology, psychology, criminology, and political science).
6. To identify and understand the need for positive interaction between the Criminal Justice System and the community it serves.
7. Understand both the mental aspects of the Criminal Justice Profession and the physical aspects which it requires.

Communication

After successfully completing the written communication requirement, students will:

1. Demonstrate literal and inferential comprehension.
2. Communicate clearly and effectively in appropriate contexts.

Computation

Students successfully completing one or more of the MATH courses satisfying the Quantitative Skills requirement at GHC will:

1. Apply algebraic, analytic, geometric or statistical reasoning to solve abstract and applied problems appropriate to an individual discipline
2. Interpret mathematical, quantitative or symbolic models such as formulas, graphs and tables, and draw inferences from them
3. Employ basic symbolic or quantitative reasoning to support a position or conclusion

Human Relations

After successfully completing the humanities distribution requirement, students will:

1. Understand and interpret artistic achievements in various forms.
2. Analyze and synthesize meaning in the arts.

Health/PE Outcomes

After successfully completing the PE requirement, students will:

1. Understand and articulate the various elements of fitness (e.g., cardiovascular endurance, strength, flexibility, body composition).
2. Understand, articulate, and evaluate how various factors (e.g., genetics, diet, activity) promote health and wellness.
3. Understand and practice safe workout practices.
4. Identify, understand, evaluate, and apply appropriate fitness strategies (e.g., diet, exercise).
