

GRAYS HARBOR COLLEGE
Operational Policy

Subject: E-LEARNING (INCLUDING ONLINE LEARNING AND HYBRID COURSES)

Page 1 of 1

OPERATIONAL POLICY NUMBER: 325

DATE ADOPTED: 4/16/19

Grays Harbor College recognizes that E-Learning, including fully online courses and hybrid courses, is an important component of its stated Vision, Mission and Values. Online and hybrid courses provide access to educational offerings that would otherwise be inhibited by students' inability to attend classes meeting only at a fixed time and location.

The Vice President for Instruction, and her/his designees, shall develop operating procedures and practices which ensure:

- online and hybrid courses meet standards and expectations of accrediting agencies, Federal and State laws, regulations and rules,
- effective student and academic services are available to support students enrolled in online and hybrid learning offerings,
- online and hybrid learning is incorporated into GHC's systems of governance and academic oversight.
