SALES TAX AND USE TAX

If applicable, use tax will be added to the transaction when sales tax is not included, and will be payable to the Washington State Department of Revenue.
SHIPPING & RECEIVING
All orders must be shipped or delivered to Grays Harbor College. For all items delivered to Central Receiving on main campus, the Receiving Department verifies the items received match those listed on the packing slip. If a packing slip is not available, a substitute packing slip is created by the Receiving Department. A signed/initialed and dated packing slip (or substitute packing slip) is placed in the box and delivered to the campus purchaser.

For all items delivered via USPS, packages are not opened by the Receiving Department. Someone, other than purchasing card user, must verify order delivery by signing/initialing and dating a packing slip, invoice, order confirmation, or receipt.

If items are picked up from merchant, delivered to another campus location, or directly delivered to user, someone other than purchasing card user must verify order matches delivery by signing/initialing and dating a packing slip, invoice, order confirmation, or receipt. This process also applies to services received.

It is the responsibility of card user to ensure purchased orders match delivered orders. The cardholder is responsible for handling delivery issues and/or returns with merchant. The purchasing card user shall contact Receiving Department to make return shipping arrangements.

For orders delivered to Central Receiving on main campus, please place the acronym ‘PC’ in front of your name on the shipping label. This alerts the Receiving Department that the delivery is a purchasing card order and will ensure items are delivered in an efficient manner. See example below.
