**Business School Admission**

For program planning purposes, students are advised that the lower-division requirements for individual Washington public university business schools may vary.

Admission to Washington public baccalaureate Schools of Business is not guaranteed to students holding an Associate in Business – DTA degree. It is strongly recommended that students contact the baccalaureate-granting business school early in their Associate in Business – DTA program to be advised about additional requirements (e.g., GPA and procedures for admission).

Please note that admission for many Business Schools is competitive, and higher grade-point averages and course grades are often required. Please check your destination school and college.
