*The placements that are in **bold** represent college level placement*

Accuplacer Math scores will be valid for 1 year, after that time it is suggested to retake placement tests for the most accurate placement information. We strongly recommend preparing for your placement exam prior to taking your test. Please see below for helpful free preparation suggestions

If you score in Transitions classes, please call the Transitions Office (360-538-4167) or visit room 2218 on campus for further testing. Please be aware that Financial Aid will not pay for Transitions classes.

CPT Study Resources

Grays Harbor College strongly recommends preparation before taking or retaking the College Placement Test (CPT). There are many resources on the internet that will help you prepare for the CPT. Research shows that people who take at least two weeks to study before retaking the CPT do better than those who retake the CPT right away. <https://www.ghc.edu/admissions/placement/prepare>
