

How to Download the ctclink Mobile App

This guide will show you how to download the ctclink mobile app. You can use the app to access the ctclink Student Self-Service portal, Canvas, GHC website, directory, calendar, map, bookstore, emergency information, student email and more. First, a few tips:

- The mobile app is a good option for people who use screen readers to interact with digital content.
- You will need your ctclink ID number and password to use ctclink on the app. If you have not created those yet, see the “How to Activate Your ctclink Account” guide.
- The app is also available as a mobile-friendly website if you’d rather not download the app. You can view and use this version from your computer desktop or mobile device.

The [Student Help Desk](#) can help if you have problems with sign-in credentials, usernames, passwords or student ID numbers.

Directions

1. Go to the app store on your mobile device. The ctclink app is available on both iOS and Android devices.
